

STACKED WASHER/DRYERS

FTEE5A / FTGE5A

COMMERCIAL-GRADE ELECTRONIC CONTROLS

Laundry is all we do, and we do it better than anyone else in the world. For decades, we've been designing, building and testing electronic controls the same way we do our machines: for unmatched, longer-lasting performance. Tested to endure through virtually every event that typically causes malfunction, electronic controls are durably designed to last in the harshest commercial environments — and last even longer in your home.

DOUBLE PERFORMANCE IN HALF THE SPACE

Alliance stacked washer/dryers deliver the same commercial-grade performance as our industry-leading single units in only half the square footage. The same durable construction. The same superior wash results. The same groundbreaking technologies. Everything you've come to expect from the world leader in laundry equipment is available in one convenient package. And it's backed by the same industry-leading warranty.

DYNAMIC BALANCING

- Manages and re-distributes unbalanced loads for uninterrupted cycles
- Minimizes vibration to near imperceptible levels
- Virtually silent operation

CLEANER CLOTHES

- Exclusive baffle design cascades water throughout the entire load
- Perfected tumble rhythms provide maximum water-to-laundry contact

HIGH EFFICIENT WASHER SYSTEM

- ENERGY STAR® Qualified
- High speed final extract of 1200 RPM
- G-Force 440G

THE ULTIMATE DRY

- Ideally balances temperature, airflow and mechanical action
- Automatically stops the cycle once preset dryness level is reached

BUILT BETTER TO LAST LONGER

- Built for commercial applications
- Constructed with premium, metal components
- Tested to deliver as per commercial-grade performance
