

Tension Pants Topper

Model 22PTSA

- Can be operated as Tensioning Topper or as Standard Topper
- Steam-heated buck with pleat pressing shoes
- PLC programmer with multiple timing programs
- Foot controls, leaving hands free to dress pants
- Variable tensioning
- Automatic pant leg measuring system
- Automatic programming for better and more consistent finish
- Multiple timing programs
- Manual drying air button
- Pre-steaming and other options with touch of a button

Tensioning equipment finishes the garment by blowing steam and hot air through the garment while holding the garment under strong tension. Model 22PTSA is simple to operate, easy on fabric and provides a beautiful finish with minimal touch up.

Specifications

Models 22PTSA
